

# California YIMBY Education Fund is proud to launch our inaugural scorecard. The scorecard showcases how each Lecislator performed on housing during the 2021 legislative session. 

Our scorecard is composed of two elementss the "vote score," and "leadership score."

## Vote Points + Leadership Points

Raw Score =
Vote Points Possible + 1 Leadership Point

## Methodology

## Vote Score

The vote score represents a Legislator's performance on a variety of bills that seek to end California's housing shortage and affordability crisis. California YIMBY Education Fund carefully selected bills that cover a variety of policy areas in order to create a score that accurately represents a member's legislative record on housing. Besides policy merits, there are two criteria that bills must meet to be on our scorecard:

The bill under consideration must have passed its "house of origin." Bills that did not pass the first house (the Senate or Assembly) do not qualify.

The bill must have received at least 5 no votes. Bills that passed unanimously don't tell us much about a member's record.

When members are presented with a bill in committee or on the floor, they have three options:
They can vote "yes," "no," or abstain from voting altogether.

## Committes Votess

1 point = Yes Vote<br>No points = Abstained or No Vote

## Foor Votess

## 1 point = Yes Vote

No points = No Vote or Did Not Vote when they were marked present
(Members who abstained and were absent are not penalized for their absence.)

# In total, there are 11 bills that we included on our scorecard. They are summarized below: 

## SB 7 | Senator Atkins

Lowers the minimum investment required to qualify as Environmental Leadership Development Project program to $\$ 15$ million, while ensuring that 15\% of units streamlined through this program are affordable.

## SB 8 | Senator Skinner

Extends the Housing Crisis Act of 2019 through 2030.

## SB 9 | Senator Atkins

Makes it legal to build duplexes on lots zoned for one house statewide and allows property owners to split their lots into two separate parcels.

## SB 10 | Senator Wiener

Allows cities to streamline the upzoning of lots near jobs and transit.

## SB 478 | Senator Wiener

Removes artificial barriers cities establish that have the effect of reducing the number of homes that can be legally built on a property.

## AB 215 | Assemblymember Chiu

Strengthens California's Housing Element law by clarifying the statute of limitations in which the state can enforce potential violations, and allows HCD to seek outside council to enforce housing element law.

## AB 339 | Assemblymember Lee

Increased opportunities for public participation by requiring state and local governments to allow for comment over the phone and online.

## AB 832 | Assemblymember Chiu

Extends evictions protections for residents experiencing financial hardship related to COVID-19.

## AB 1401 | Assemblymember Friedman

Eliminates parking mandates on projects near highquality transit.

## Leadership Points

Leadership points are meant to elevate members who went the extra mile to pass pro-housing measures this session. Members are awarded 2 points for authoring and 1 point for co-authoring a bill. We add 1 leadership point to the number of points possible for each member, however, a member can earn more than 1 leadership point.

The list of bills scored for leadership points is slightly different than those scored for the vote score. In addition to the bills that compose our vote score, we also scored bills that did not move very far in the legislative process or were nearly unanimous.

> Members who authored or coauthored the followine bills will be given extra points on top of their vote scores
